**Al-Comrade of security leadership of Tameem Salah Al- deen and
Sulymania Governorates**

I submit...

I am the Sheikh / Muhssen Haza Muhammad / chief Al- Jamila tribe.

I hope your agreement to meet me for explaining some private matters for the tribe which required you to explain them for us...

Previously, I submitted my request in 1/8/1998 about transferring the files and provision cards for my citizen tribes and specialize agricultural and residential lands for them, and really, the Governorate agreed according to its letter of 2774 in 19/9/1998 and Salah Al- Deen letter of 4309 in 3/10/1998 that attached. The Governorate told Alton Kubri directorate about specializing inhabitation and agricultural lands to our tribe. In spite of my many visits to area manager till now does not determine any procedures about the subject. As he told me finally, that I will work as a farmer and not as a Sheikh of a tribe unless inform us by the Governorate. Farmers were met twice by him in 1998 and 1999. So, I ask for your kindness and generosity to command the above-mentioned area about specializing a place for my tribe dwelling and distribute agricultural lands to them to complete the procedures of transferring identification files and their residencies. To inform specific management's about my dwelling as a sheikh to administrate the affairs of my tribe / formally and tribally.

We will stay as faithful soldiers and a flag for right, justice and humanity under the flag of Saddam Hussein

*(God Is The Greatest)
With full greetings and Regards*
